

MouseHelper::MouseHelper

```
graph LR; A[MouseHelper::MouseHelper] --> B[MouseHelper::resetSpring<br/>MouseMoving];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'MouseHelper::MouseHelper'. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains two lines of text: 'MouseHelper::resetSpring' on the top line and 'MouseMoving' on the bottom line.

MouseHelper::resetSpring
