

SetJoystick::propogateSet
VDPadNameChange

```
graph LR; A[SetJoystick::propogateSet<br/>VDPadNameChange] --> B[JoyDPad::getIndex]
```

A diagram showing a call from the function `SetJoystick::propogateSet` to the function `JoyDPad::getIndex`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

JoyDPad::getIndex
